

Course Outline: Certified Incident Manager (ISO 27035)

Certification: Certified Incident Manager (ISO 27035)

Required Courses and Exams:

Course	Exam
Certified Incident Manager (ISO 27035)	ISO 27035

Duration: 5 Days

Candidate Prerequisites:

A fundamental understanding of ISO/IEC 27035 and comprehensive knowledge of Information Security.

Overview:

ISO/IEC 27035 Incident Manager training enables you to acquire the necessary expertise to support an organization in implementing an Information Security Incident Management plan based on ISO/IEC 27035. During this training course, you will gain a comprehensive knowledge of a process model for designing and developing an organizational incident management plan. The compatibility of this training course with ISO/IEC 27035 also supports the ISO/IEC 27001 by providing guidance for Information Security Incident Management.

Who Should Attend:

- Information Security Incident managers
- IT Managers
- IT Auditors
- Managers seeking to establish an Incident Response Team (IRT)
- Managers seeking to learn more about operating effective IRTs
- Information Security risk managers
- IT system administration professionals
- IT network administration professionals
- Members of Incident Response Teams
- Individuals responsible for Information Security within an organization

What is Included:

- eBook
- 1 exam voucher - Online Exam Proctoring
- Certificate of Attendance (Digital)
